All areas that require power will be the owner's responsibility to supply adequate power. All of these items are currently available, but I can assure you they will go fast and the closer we get to Christmas availability becomes difficult.

This proposal from Christmas Décor by Turf Masters, is compromised of the design, installation and removal of holiday decorations. All lighting and decorations remain the property of the service provider. On year (2) Two the price for each line item will decrease by 10% and year (3) Three the price will decrease by another 10%. Christmas Décor by Turf Masters also agrees to install 20 ft Christmas Tree and Lighted Garland along poles on Delmas Ave as previous years at No Charge to the city.

Please let me know if you have any questions.

Thank you in advance for your consideration and for the opportunity.
